Hi there,

Any documents just need to be added into SEMS. I can handle from there to get them on the website.

Thanks,

-Ed-

**Subject:** Re: Lane Plating removal

Hi Elizabeth,

I don't think that there was any removal related docs added to the repository. I don't think there was an AR for the removal, unless one was set up by Jo Horner.

If there's a request for additional fencing we should probably discuss further. I've cc'd Susan regarding this.

I'm on leave today and compressed tomorrow. Then I'll be on site travel next week.

Hi Mark, a couple of weeks ago Stephen, Ken and I met with the City of Dallas to talk about access for RI sampling at Lane Plating. They had a couple questions about the removal I was hoping you could help me with. First, I see on the website for Lane Plating that the repository location is the Highland Hills public library. Have we put any documents in there? I also see there's no AR for the removal and the link to publicly available documents doesn't have anything on the other end. Did we ever make an AR for the removal? I figure for the repository, we should at least put in the action memo and the removal action report—Ed can you help us put those up on the website? My second question is the City was asking about whether fencing and signage was needed around the Site. I told them that if we didn't put up a fence during the removal action that probably means there was no ISE that justified a fence, but that I would check with you and make sure. They wanted me to check if we maybe needed another removal action to put up a fence.

Thanks so much,  
Elizabeth
